

# **Policy solutions for childhood obesity: FROM SCIENCE TO POLICY IMPLEMENTATION**

## **a joint conference between STOP & Joint Action Best-ReMaP**

**17<sup>th</sup> and 18<sup>th</sup> November 2021**

**Ljubljana, online**

In parallel with the Slovenia presidency 2021, a high-level event on food policy will be organized in Ljubljana between two partner projects, The Science & Technology in childhood Obesity Policy ([STOP](#)) and Joint Action Best Practices in Nutrition ([JA Best-ReMaP](#)). The conference will support the translation of research knowledge to support policy decision-making. It will leverage the project's innovative and complementary approaches to curb the rise in child and adolescent obesity.

STOP convenes key actors in the health and food sector to generate scientifically sound and policy-relevant evidence on the root causes of childhood obesity, with a focus on vulnerable and socially disadvantaged children and their families. The project aims to identify critical stages in childhood obesity interventions that can be most effective and efficient. JA Best-ReMaP works with member states to adapt, replicate and implement effective health interventions, based on best practices in the areas of food reformulation, food marketing and public procurement of healthy food in public settings.

Building on the [second STOP Stakeholder Dialogues Conference](#), the project will host its third Childhood Obesity Stakeholder Dialogue as an avenue to continue better understanding their perspective on project processes and outcomes. JA Best-ReMaP will identify promising policy measures with EU member states and European Commission representatives, leveraging on insights from the STOP stakeholder network.

The outcome of the two-day conference is to make recommendations to national authorities and the European Commission on a sustainable plan for future policy action and stakeholder engagement to address the childhood obesity epidemic on EU level.

## DAY 1, 17<sup>th</sup> November 2021 - 1

### STOP – Science and Technology in childhood Obesity Policy

## Third Childhood Obesity Stakeholder Conference and Dialogues

### Morning sessions

08.30 – 09.00	<b>Registration of participants</b>
09.00 – 09.20	<b>Welcome to the third STOP conference and stakeholders dialogs</b> <ul style="list-style-type: none"> <li>• <i>Alenka Forte, State Secretary, Ministry of Health Slovenia</i></li> <li>• <i>mag. Aleš Irgolič, State Secretary, Ministry of Agriculture, Forestry and Food</i></li> </ul>
09.20 – 9.35	<b>Presentation of the STOP project main scientific outcomes</b>  <i>Speaker: Franco Sassi, ICL</i>
9.35 – 10.15	<b>STOP state of the art</b>  <i>Speakers:</i> <ul style="list-style-type: none"> <li>• <i>Oliver Robinson ICL (STOP WP3)</i></li> <li>• <i>Gregor Starc, UL-FS (STOP WP7)</i></li> <li>• <i>Josep A. Tur, University of the Balearic Islands</i></li> </ul> <i>Moderator: Franco Sassi, ICL</i>
10.15 – 10.45	<b>Food reformulation – scientific STOP outcomes and knowledge transfer recommendations to JA Best-ReMaP</b>  <i>Speakers:</i> <ul style="list-style-type: none"> <li>• <i>Mathilde Gressier and Harry Tang, Imperial College London</i></li> <li>• <i>Stefanie Vandevijvere, Sciensano Belgium</i></li> </ul> <i>Comments: Jean-Luc Volatier, ANSES (JA Best-ReMaP)</i>
